Sandra Flores	90022	East LA – Alma Family Services	ELA is a community of diverse individuals that value social justice, advocacy and ethnicities. ELA is important to me and to others because it is a community that continues to value our culture and traditions. ELA values our home language and our county of origins.	ELA does not need to be redistrict or separated. As a community of culture and diversity, ELA needs to stay together as it is a community of resilience, hope and perseverance.	East LA, Northeast LA and SELA share MANY social interests. For years, our communities have banded together as a region to address environmental issues and have been able to achieve results such as the cleaning up of toxic lead spewed by the Exide battery recycling plant and to stop the proliferation of landfills. Environmental Justice is particularly important to me as I am involved in a community garden project and have participate in other clean-up efforts.	A basic concept we teach our children is to preserve what works and only attempt to fix what is broken. Our Community of Interest is not broken. We are stronger and better together as one region. We hope the commission seriously consider the interests of people like you/me, residents and professionals who have dedicated their life to your region and wants it to be preserved! Denise Villamil	90042	NELA/ East LA/ Eastside	I am a parent, a resident and service provider. Everything is vital in this area, where I shop, live and find education for my daughter.	-		Hi, my name is Denise Villamil and I'm a resident and stakeholder of the Northeast LA and East LA Communities. The Eastside area is a unique community of interests comprised of various stakeholders who share a vision and unity. As a service provider for youth it has been decades of working together with partners who share the same interest in helping this region. This is a result of the genuine investment and understanding of the needs of families and children in this area. We are able to relate to similar challenges and find solutions together. A division and redistricting of our district could result in drastic service area disruption and ultimately at the cost of the community who is in high need of our services. As a service provider I have seen how having one Supervisor, who advocates on behalf of the whole region is critical to address

It is important to have one representative who we can rely on for the needs of the region. The Eastside has grown considerably and I have experienced this growth as a Northeast LA Resident, Service Provider, and parent. The progress is a result of years of work and the leadership of one supervisor who understands the importance of addressing the region's individual needs while also having a larger vision for the district. We do not want our region fragmented. We strongly advocate against dividing our region which has moved towards greater collaboration and improved quality of life for the community at large. As a constituent, I urge the commission to put the communities' shared interest first.  (See recording for live comments.)
Jesus Villalba	90280	Southeast LA Region	Hello commissioners. My name is Jesus Villalba Gastelum and	-	-	(See recording for live comments.)

I am a CHIRLA	
member. I'm also a	
resident of the city of	
South Gate, a	
community I have	
lived in for 11 years.	
South Gate is located	
in the Southeast LA	
region, which is a	
region I have been	
living in for 16 years.	
Today I will speak for	
my community of	
South Gate and the	
Gateway Cities as an	
immigrant: My	
neighbors, those who	
live in my community,	
are working class	
immigrants like me.	
They are construction	
workers, factory	
laborers, food plant	
processors, teachers,	
and resource center	
workers. They live in	
mostly apartment	
complexes, thought	
their unit count tends	
to be in the dozens.	
We have Leland R	
Weaver Library, a few	
churches, Al Zahra	
mosque, a Jewish	
bookstore, but no	
synagogue. We also	
have Religious Private	
Schools in all of the	
big three Abrahamic	
faiths. We have South	
taiths. We have South	

Gate Park, an isolated
bike route along
Southern, and of
course a few very
valuable COVID 19
testing and vaccination
centers, and St Francis
Hospital. The majority
of my neighbors are of
mixed indigenous and
hispanic heritage,
though we also share
community with a few
south Asian, Middle
Eastern, North
African, and European
American neighbors.
In our streets, you will
hear Spanish spoken
more than English, and
the occasional
Portuguese, Arabic
and Bangla. We, like
our neighbors,
celebrate a vast variety
of seasons and dates.
Before COVID-19,
South Gate hosted the
Tweedy Mile fair
every first weekend of
June, and people from
the region would
gather. We also had
Christmas parades
down that same street,
though now we enjoy
the occasional car
parade for big days
like the first day of
school, or individual

If you take the 115 bus

many lines of public

the cities, the wait

community is
drastically different
from cities and
neighborhoods like
Los Angeles, Downey,
Santa Fe Springs.
They are very similar
to Huntington Park,
Maywood, Bell

well as the
communities of Watts
and Florence-
Firestone. It is
important that my
community stays
together because we
share a common
language other than
English, a common
background of
immigration, similar
housing and income
conditions, and
cultural values and
traditions. Though we
may be diverse in
faith, we are very
united in our resolve

Roberto Bustillo	90255	Sur Este de Los Angeles	Trabajo en Huntington Park y esta comunidad tiene un sector comercial bien fuerte, una red de organizaciones y líderes que son bien activos en la comunidad. Compartimos problemas comunes con otras ciudades del Sur Este de Los Angeles, seguridad, falta de vivienda económica, falta de oportunidades educativas para adultos, etc. También nos une la diversidad, el lenguaje, las comidas, las festividades y mas.	No, queremos que las comunidades sean divididas, por el contrario queremos que comunidades que están divididas haya una sola representación, tal es el caso de Watts en la ciudad de Los Angeles.	Somos una comunidad con muchas necesidades y queremos que se atiendan a esas necesidades. A la vez tambien tenemos una base amplia de pequenos negocios, varias escuelas, etc.	Quiero que se mantenga la unidad política de las comunidades.

The people who live in my community are a mix of the working, lower, and upper class. I grew up with a diverse community of humble	-	-	(See recording for live comments.)

people. The majority
of us are Latino
immigrants whose
primary language is
Spanish besides
English. However,
there are areas like
Uptown Whittier that
consist of middle to
upper class including
nicer housing in the
hills. Since my
community is diverse,
there is lots of housing
but I am mostly, to my
experience,
surrounded by
apartments and houses
sometimes in crowded
places like Uptown
Whittier. From my
experience, the largest
employer besides the
Uptown Whittier is the
Starlight Cinema
which is a popular
movie theatre by all
Whittier-raised people.
The community Th
members in my
neighborhood do jobs
of all sorts like fixing
the roads in La
Mirada, Santa Fe

Whittier, and do jobs
like being doctors and
lawyers so the
community is very
diverse in their

South El Monte, Santa

United community to	
everyone of all ages,	
race, and status. It has	
a loving environment	
for years now and will	

continue to be. My
community in Whittier
is different from the
following
neighborhoods/cities:
Pico Rivera,
Montebello because
there may be a few
homeless people but
the area feels like
home to those who
were raised in Whittier
like myself. It is
important that my
community sticks
together because we
care about the
following issues such
as immigration,
COVID relief, access
to education and
worker rights because
as a minority, the
community has held
on to each other as a
community for many
years and change was
brought but it is not
enough so it is
important to have the
community together.
By keeping the
following
neighborhoods
Whittier together in
one district our
representatives can
continue to be
champions for these
issues. Thank you for

Los servicios de cuidado de niños son por medio de escuelas públicas o daycare privados. Los parques en mi comunidad están bien cuidados pero no han sido remodelados en muchos años. Por falta de recursos los parques McAdams sobre la 30th y R y el parque de correr Pelona se benefician de tener más actividades para los jóvenes y familias. rutas más usadas son
la ruta 1 que te lleva
